How to Use This Log Book

Make every pour a learning experience

WHY KEEP A WHISKEY LOG?

The difference between drinking whiskey and understanding whiskey is attention. A tasting log helps you discover patterns — which styles you gravitate toward, how age and cask type shape flavor, what regions deliver the character you love. Over time, your log becomes your personal whiskey roadmap.

Tips for Better Tasting

- 1. Nose before you sip.** A Glencairn glass concentrates aromas at the rim. Hold the glass just below your nose and take short, gentle sniffs. Your nose picks up far more than your palate ever will — this is where most of the flavor lives.
- 2. Cleanse your palate.** Sip still water and eat a plain cracker between pours. Avoid spicy or strongly flavored food before a session. A neutral palate lets you taste each whiskey honestly.
- 3. Add water, drop by drop.** A few drops of room-temperature water can open up a whiskey, releasing hidden aromas and softening the burn of higher ABV. Try a pour neat first, then add water and compare — note which you prefer.
- 4. Record the details.** Distillery, age, type, cask finish, and ABV are the foundation. The more consistently you log these, the easier it becomes to spot what you love and why.
- 5. Compare side by side.** Taste two whiskeys next to each other when you can. Pour a quarter ounce of each and alternate. The differences in peat, oak, sweetness, and finish become vivid when you have a direct reference.

Pro Tip: *Let your whiskey rest in the glass for 5–10 minutes before tasting. The spirit opens up as it breathes, and the aromas become richer and more layered.*

Whiskey Flavor Wheel

Find the words for what you taste

PEAT & SMOKE

Campfire • Ash • Iodine • Medicinal • Tar • Wood Smoke • Pipe Tobacco • Leather • Earth

OAK & WOOD

Vanilla • Toasted Oak • Cedar • Sawdust • Charred Oak • Coconut • Resin • Driftwood

SWEET & CARAMEL

Caramel • Honey • Toffee • Brown Sugar • Maple Syrup • Butterscotch • Molasses • Crème Brûlée

FRUITY

Apple • Pear • Cherry • Raisin • Dark Fruit (plum, fig) • Citrus (orange, lemon) • Tropical • Dried Apricot

SPICE

Cinnamon • Black Pepper • Clove • Nutmeg • Ginger • Chili • Cardamom • White Pepper

FLORAL & HERBAL

Heather • Rose • Violet • Lavender • Grass • Hay • Mint • Tea-like • Herbal

NUTTY & GRAIN

Almond • Hazelnut • Walnut • Peanut • Malt • Cereal • Bread • Biscuit • Barley

RICH & DARK

Dark Chocolate • Coffee • Cocoa • Espresso • Treacle • Licorice • Seaweed • Salty Brine

Use these categories as a starting point. Your palate is unique — trust your own descriptions. The goal is to recognize patterns in what you enjoy.

Whiskey Types Guide

Every style has a story and a flavor profile

Scotch Single Malt	Produced from 100% malted barley at a single distillery in Scotland, aged minimum 3 years in oak. Complex, characterful, and diverse — from delicate and floral to heavily peated. Best for: Sipping neat, savoring complexity
Scotch Blended	A blend of single malt and grain whisky from multiple distilleries. Smooth, approachable, and consistent. The backbone of the Scotch whisky industry. Best for: Everyday sipping, cocktails
Bourbon	American whiskey made from at least 51% corn, aged in new charred oak barrels. Sweet, rich, and full-bodied with notes of vanilla, caramel, and oak. Best for: Neat, on the rocks, old fashioned
Rye Whiskey	American or Canadian whiskey with rye as the dominant grain. Spicy, bold, and peppery with a drier finish than bourbon. Makes exceptional cocktails. Best for: Manhattan, old fashioned, sipping
Irish Whiskey	Triple-distilled for smoothness, typically from a blend of malted and unmalted barley. Light, approachable, and clean with gentle fruit and honey notes. Best for: Sipping, introduction to whiskey
Japanese Whisky	Inspired by Scotch tradition but with its own refined character. Delicate, balanced, and precise. Often floral, with elegant oak integration. Best for: Neat sipping, special occasions
Tennessee Whiskey	Filtered through sugar maple charcoal (the Lincoln County Process) before aging. Smoother and mellower than bourbon, with a distinctive sweetness. Best for: Sipping neat, on the rocks
Canadian Whisky	Typically lighter and smoother, often blended. Usually corn-based with rye for flavoring. Versatile, approachable, and great for mixing. Best for: Highball, cocktails, easy drinking

Whiskey Regions Guide

Where your whiskey comes from shapes what it tastes like

Scotland — Highlands	The largest and most diverse region. From light and floral to rich and full-bodied. Notes of heather, honey, spice, and dried fruit. A world of character.
Scotland — Lowlands	Light, delicate, and grassy. Triple-distilled tradition. Soft, floral, and easy-drinking with hints of citrus and green apple. Gentle and approachable.
Scotland — Islay	Famous for powerful peat smoke, seaweed, and medicinal notes. Bold, briny, and unforgettable. The most distinctive whisky region in the world.
Scotland — Speyside	Home to more than half of Scotland's distilleries. Typically rich, sweet, and complex with notes of honey, fruit, and subtle oak. Elegant and refined.
Scotland — Campbeltown	Once a whisky powerhouse, now a handful of distilleries. Dry, smoky, with a briny, oily character and hints of fruit and vanilla. Distinctive and sought-after.
Ireland	Triple-distilled and typically unpeated. Smooth, light, and approachable with green apple, honey, and vanilla. The original whiskey-making tradition.
USA — Kentucky	The heart of bourbon country. Sweet, rich, and full-bodied with deep caramel, vanilla, and charred oak. The American whiskey capital.
USA — Tennessee	Charcoal-mellowed for smoothness. Sweeter and softer than Kentucky bourbon, with a clean, mellow character. Distinctively American.
Japan	Modeled on Scotch but uniquely Japanese. Precise, balanced, and elegant. Notes of blossom, oak, and gentle fruit. Craftsmanship at its finest.
Canada	Lighter in style, often with rye for spiciness. Smooth, versatile, and easy-drinking. Great value and excellent for cocktails.
India	Growing reputation for quality single malts. Often tropical fruit-forward with bold flavors from rapid maturation in hot climates. An emerging powerhouse.
Taiwan & Australia	New-world whiskies winning global awards. Tropical climate aging produces rich, fruity, and complex whiskies in record time. Innovation at its peak.

Tasting Terminology

Speak the language of whiskey

Nose

The aroma of the whiskey — what you smell before you taste. The nose reveals the most about a whiskey's character. Take short sniffs; long inhales overwhelm the senses.

Palate

The flavors you experience as the whiskey enters your mouth. Take a small sip and let it coat your tongue. Note sweetness, spice, fruit, smoke, and texture.

Finish

The lingering flavors and sensations after you swallow. Can be short and clean, or long and warm. A great finish evolves and stays with you — peat and oak tend to linger longest.

Mouthfeel

The texture and weight of the whiskey in your mouth. Described as thin, oily, creamy, velvety, or waxy. Higher ABV whiskeys often have a richer, more viscous mouthfeel.

Complexity

The range and layering of flavors. A complex whiskey reveals different notes as it develops in the glass and on the palate. Simple whiskeys taste one-dimensional.

Smoothness

The absence of harshness or burn. A smooth whiskey goes down easily. Smoothness can come from age, distillation method, or charcoal filtering, but it is not the same as quality.

Peat / Smoke

The smoky, earthy character imparted by drying malt over a peat fire. Measured in phenol parts per million (PPM). Islay Scotches are famous for their bold peat smoke.

Oak

The influence of the aging barrel. New charred oak imparts vanilla, caramel, and spice. Ex-bourbon barrels add sweetness; ex-sherry casks add dried fruit and richness.
