

Running Training Log

*Track Every Run, Every Mile,
Every Goal*

MORE SHINE PRESS

Your Training Partner

This log is designed to make you a stronger, smarter runner. Every serious runner keeps records -- not because they enjoy paperwork, but because reviewing past training is the fastest path to consistent improvement and fewer injuries.

The Two-Page Run Spread

Each run uses a **two-page spread**. The left page captures the essentials: date, distance, duration, pace, route, weather, effort, heart rate, and calories. The right page is for your reflections: how it felt, what went well, what to improve, shoes worn, route notes, and workout type.

The Weekly Summary

After every 5 runs, a **weekly summary page** helps you track total mileage, average pace, longest and shortest runs, elevation gain, rest days, and notes on how the week went.

Tips for Success

- **Log it right away.** Fill in each run while the details are fresh in your mind.
- **Be honest about effort.** Record how hard the run truly felt, not just the numbers.
- **Watch your shoes.** Track mileage on each pair so you know when to replace them.
- **Review regularly.** Patterns and progress emerge over weeks, not single runs.
