

Home Renovation Planner

Plan Every Project, Every Budget, Every Detail

MORE SHINE PRESS

Your Renovation Companion

This planner helps you organize home improvement projects from concept to completion. Track materials, budgets, contractors, and timelines all in one place. Whether you are remodeling a kitchen or painting a room, this journal keeps every detail organized.

The Project Pages

Each project uses a **two-page spread**. The left page captures project scope, room details, materials needed, and measurements. The right page tracks budget, contractor info, timeline, and progress notes.

Tips

- **Always add 15-20 percent contingency.** Surprises happen once walls come open.
- **Get three quotes.** Compare contractor bids on the same scope of work.
- **Order materials early.** Lead times can derail your schedule.
- **Document with photos.** Before, during, and after -- for insurance and satisfaction.
