

Vehicle Maintenance Log

Track Every Service, Every Mile, Every Repair

MORE SHINE PRESS

Your Vehicle Journal

This log book is your vehicle's complete service history. Record every oil change, tire rotation, brake job, and repair. Over time, these records protect your investment and boost resale value.

The Service Log

Each service entry uses a **two-page spread**. The left page captures the date, mileage, service type, shop or DIY details, and parts used. The right page tracks costs, labor, fluid checks, tire condition, and notes for next time.

Tips

- **Log it immediately.** Write entries the same day as service.
- **Keep receipts.** Note where you filed them for warranty claims.
- **Track mileage.** Knowing your mileage patterns helps predict when services are due.
- **Note recalls.** Record any recall work performed by dealerships.
