

Every crystal tells a story. This journal helps you remember them all. From the first tumbled stone to a curated collection of rare specimens, this journal transforms your passion into a personal crystal encyclopedia. Document physical properties, metaphysical associations, and your own experiences with each piece.

WHAT'S INSIDE

- 40 two-page specimen logs (identity + metaphysical)
- Mohs hardness scale with care implications
- Seven crystal systems reference guide
- Chakra and color association chart
- Cleansing and charging methods guide
- Safety notes for fragile and toxic minerals
- Collection overview, supplier directory, storage plan
- Crystal grid and meditation session records
- Large 6" x 9" format — easy to write in
