

Every seed is a link in a living chain stretching back millennia. *This journal helps you become a seed saver — preserving heritage varieties, adapting crops to your garden, and building a personal seed library that grows more valuable with every season.*

WHAT'S INSIDE

- 40 two-page variety logs (identity + seed record)
- Pollination guide for 15 common garden crops
- Seed processing methods (dry and wet)
- Germination testing protocol and viability chart
- Storage guide for maximum seed longevity
- 10 garden plant families with crossing rules
- Seed library inventory (48 entries)
- Seed swap/exchange log and acquisition wishlist
- Year-in-review and garden layout planning pages
- Large 6" x 9" format — easy to write in
