

Password Keeper

*A Secure Logbook for
All Your Online Accounts*

MORE SHINE PRESS

* Your Personal Password Vault

This password keeper helps you organize every online account in one secure, offline location. No more forgotten passwords, no more risky password reuse -- just one reliable reference you can turn to anytime.

* A-Z Tabbed Organization

Accounts are organized **alphabetically from A to Z**. Each letter has its own tab page followed by entry pages with spacious tables. Record the website name, username, password, email used, security questions, and notes for each account.

* Security Best Practices

- Use a **different password** for every account.
- Make passwords at least **12 characters** long with a mix of letters, numbers, and symbols.
- Consider using a **passphrase** -- a sequence of random words is both strong and memorable.
- Enable **two-factor authentication** whenever possible.
- Update passwords **every 6-12 months**.
- Store this book in a **safe or locked drawer** -- treat it like the valuable document it is.

* What to Record

For each account, note the **website, username or email, password, recovery email**, and any **security questions** with their answers. The notes column is for PINs, backup codes, subscription dates, or renewal reminders.

IMPORTANT DETAILS

OWNER NAME	PRIMARY EMAIL
RECOVERY EMAIL	PRIMARY PHONE

BEST PRACTICES

PASSWORD HABITS

- ☐ No reused passwords
- ☐ Mix of letters, numbers, symbols
- ☐ Last updated within 12 months
- ☐ 12+ character passwords
- ☐ Passphrases for key accounts
- ☐ No passwords written on sticky notes

ACCOUNT SECURITY

- ☐ 2FA enabled on email
- ☐ 2FA on social media
- ☐ Recovery phone current
- ☐ 2FA on banking
- ☐ Recovery email set on all accounts
- ☐ Backup codes stored safely

DEVICE SECURITY

- ☐ Phone passcode set
- ☐ Auto-lock enabled
- ☐ Antivirus / firewall active
- ☐ Computer password set
- ☐ Disk encryption on
- ☐ Software updates current

THIS BOOK

- ☐ Stored in a safe place
- ☐ Someone knows where to find it
- ☐ Not shared with untrusted people
- ☐ Updated regularly

LAST AUDIT DATE & NOTES

NEXT AUDIT DUE

*Security is not an accident.
It is a habit built one password at a time.
Stay safe. Stay organized.*
