

Pregnancy Journal

*A 40-Week Guided Journal
for Moms to Be*

MORE SHINE PRESS

* Your Pregnancy Companion

This journal is designed to be your companion through one of life's most extraordinary journeys. From the first positive test to the first cry in the delivery room, every week brings new changes, new emotions, and new memories worth preserving.

* The Weekly Pages

Each week from week 4 to week 40 has its own **tracking page**. Record your symptoms, mood, cravings, weight, appointments, and thoughts. There is space for a bump photo reference and notes about how you are feeling. Weeks are grouped into three trimesters, each with its own divider and reflection page.

* Milestone Pages

Beyond the weekly tracking, you will find dedicated pages for:

- **Pregnancy Overview** -- due date, doctor, hospital, support team.
- **Prenatal Appointments** -- log every visit, question, and result.
- **Ultrasound Gallery** -- preserve each sonogram with date and notes.
- **Baby Names** -- brainstorm and narrow down your favorites.
- **Nursery Planning** -- plan the perfect space for your little one.
- **Hospital Bag Checklist** -- everything you need for the big day.
- **Birth Plan & Birth Day** -- your preferences and the first details.
