

Gardening Journal

*Track Every Seed, Every Bloom, Every
Harvest*

MORE SHINE PRESS

THIS JOURNAL BELONGS TO

NAME	
EMAIL	
PHONE	
GARDEN LOCATION	
USDA HARDINESS ZONE	
GARDEN TYPE	
GARDEN SIZE	

*Record your garden journey through every season.
Each entry builds a growing record you will treasure for years.*

HOW TO USE THIS JOURNAL

- 1 Record each garden entry as soon as you finish your session while memories are fresh. Fill in the fields on the left page, then write your observations on the right.
- 2 Use the garden sketch area to draw your bed layout, mark where you planted, or plan where new plants will go.
- 3 Track your garden through all four seasons. Note the weather, soil moisture, and which tasks you completed each time you visit the garden.
- 4 Use the companion planting guide to plan which plants grow best side by side, and the planting calendar to know when to sow each crop.
- 5 At season's end, use the summary pages to tally your harvest, count your gardening days, and set goals for next year.
- 6 This journal fits 35 garden entries. Keep it with your garden tools so it is always ready for your next visit.

GARDEN WISDOM

The best fertilizer is the gardener's shadow. Visit your garden often, observe closely, and this journal will become a living record of everything you grow.

GARDEN OVERVIEW

GOALS FOR NEXT SEASON

COMPANION PLANTING GUIDE

Plants that grow better together

1 Tomato + Basil

Basil repels pests that trouble tomatoes and is said to improve flavor. Plant them as close neighbors.

2 Carrot + Onion

Onions deter carrot flies, and carrots deter onion flies. A classic mutual-protection pairing.

3 Bean + Corn

Beans fix nitrogen in the soil, feeding the tall corn, while corn stalks give beans a natural pole to climb.

4 Cucumber + Radish

Radishes repel cucumber beetles. Sow radishes around cucumbers and let them go to seed as a trap crop.

5 Lettuce + Strawberry

Lettuce grows low and shades strawberry roots, keeping soil cool and moist while deterring weeds.

6 Pepper + Okra

Okra's tall stems provide wind protection for peppers, and peppers help repel some okra pests.

7 Marigold + Tomato

Marigolds repel nematodes in the soil and discourage many common tomato pests with their scent.

8 Nasturtium + Cucumber

Nasturtiums act as a trap crop for aphids and crawling pests, drawing them away from cucumbers.

GARDEN ESSENTIALS

Tools every gardener should have

01 QUALITY SOIL / COMPOST

Foundation of every healthy garden

02 HAND TROWEL

For digging, transplanting, and potting

03 PRUNING SHEARS

For trimming, deadheading, and harvesting

04 WATERING CAN / HOSE

Gentle, consistent watering for young plants

05 GARDEN GLOVES

Protect your hands from thorns and soil

06 SEEDS / SEEDLINGS

The starts of everything you will grow

07 PLANT MARKERS

Label what you planted and where

08 SUN HAT

Shade for long hours in the garden

09 KNEE PAD

Comfort for planting and weeding low

10 GARDEN FORK

For turning compost and aerating soil

GARDENER'S RULE

Take care of your tools and they will take care of your garden. Clean, sharpen, and store them properly after every use.

PLANTING CALENDAR

When to plant your favorite crops

SPRING

☐ Peas ☐ Lettuce ☐ Spinach ☐ Radish ☐ Carrot ☐ Onion

SUMMER

☐ Tomato ☐ Pepper ☐ Cucumber ☐ Bean ☐ Squash ☐ Corn

FALL

☐ Kale ☐ Broccoli ☐ Cabbage ☐ Garlic ☐ Beet ☐ Turnip
