

Stock Trading Journal

*Track Every Trade, Analyze Every Move,
Master Your Strategy*

MORE SHINE PRESS

👉 Your Trading Edge

This journal is designed to make you a more disciplined, self-aware trader. Every professional trader keeps records -- not because they enjoy paperwork, but because reviewing past trades is the fastest path to consistent profits.

👉 The Two-Page Trade Spread

Each trade uses a **two-page spread**. The left page captures the setup: ticker, direction, entry and exit prices, position size, and risk parameters. The right page is for your analysis: the reasoning behind the trade, what went right or wrong, lessons learned, and an emotion and confidence check.

👉 The Weekly Review

After every 10 trades, a **weekly review page** helps you spot patterns: win rate, average gain vs. average loss, best and worst trades, and recurring mistakes. This is where edge is built.

👉 Rules to Follow

- **Fill it in immediately** after each trade, while details are fresh.
- **Be honest.** Record your emotions, not just numbers.
- **Review weekly.** Patterns emerge over 20+ trades.
- **Define risk before entry.** Know your stop loss and profit target.
