

Hunting Log Book

Track Every Hunt, Every Season, Every Memory

MORE SHINE PRESS

Your Hunting Journal

This log book is designed to be your faithful companion in the field. Record every hunt — the conditions, the game, the shots, the gear, and most importantly, the memories. Over time, your logs become an invaluable record of your hunting seasons.

The Hunt Log

Each hunt uses a **two-page spread**. The left page captures date, location, game species, weather, and sighting details. The right page records shot placement, harvest details, gear used, and your field notes and observations.

Tips

- **Log it same day.** Details fade quickly after a long hunt.
- **Note the wind.** Wind direction matters more than almost anything.
- **Track patterns.** Over seasons, you will see animal movement patterns.
- **Record misses too.** They teach as much as successes.
